

## Stratford's Policy Framework

The Town's framework is comprised of the following key policy documents:

- ✓ 2010 Corporate Strategic Plan
- ✓ Master Transportation Plan (drafted 2011)
- ✓ Stormwater Management Plan (drafted 2012)
- ✓ Imagine Stratford: 2015 Town Official Plan
- Zoning Stratford: 2016 Development Bylaw
- Heritage Policy and Bylaw Review (planned for 2017/18)

The Town's Corporate Strategic Plan set out the general course toward building the best community possible. The Town's Master Transportation Plan aims to boost the connections between our neighborhoods, commercial spaces, public spaces and neighbouring communities and give certainty to landowners as to how the community will take shape as development occurs. Moving from our streets to our ditches, the Town's Stormwater Management Plan aims to better manage how water flows from the individual property to the Northumberland Strait through sensitive coastline. Finally, a review of the Town's Heritage Bylaw and related policies is scheduled to follow the Development Bylaw in order to further implement the policies of Imagine Stratford.
